PE Long Term Plan 2026-27

Your specialist provision would then be focused on the areas where teachers often need the most support:

- **Gymnastics (all year groups)** – progression, apparatus use, safety and teacher CPD.
 NEW PE LTP - 26-27 funding redu...
- **Dance (Years 3–6)** – choreography, performance quality and progression through KS2.
 NEW PE LTP - 26-27 funding redu...
- **OAA specialist day** – to ensure high-quality delivery of an area many schools struggle to provide.
 NEW PE LTP - 26-27 funding redu...

Meanwhile, teachers would deliver:

- Fundamentals
- Ball skills
- Invasion games
- Striking and fielding
- Target games
- Athletics

using Get Set 4 PE and the knowledge they've developed through previous coaching support.

If you were writing your Sport Premium rationale, I'd phrase it something like:

"Following a reduction in funding, specialist provision has been targeted towards areas requiring greater subject expertise and where staff confidence is lower. Specialist gymnastics will be delivered across all year groups, specialist dance will be delivered in KS2, and specialist OAA provision will be introduced. Teachers will deliver games, athletics and fundamental movement units using Get Set 4 PE resources. This approach maintains curriculum breadth while developing staff confidence and ensuring sustainability."

PE Long Term Plan 2026-27

If Ofsted walked in

I'd be confident explaining:

- Clear EYFS → KS1 → KS2 progression.
- Coverage of all National Curriculum strands.
- Specialist support targeted at gymnastics, dance and OAA.
- Teacher-led delivery of games and athletics through Get Set 4 PE.
- Reduced budget but maintained curriculum breadth.
